### Team Could Be Driven Through Hole Knocked In Liner Olympic

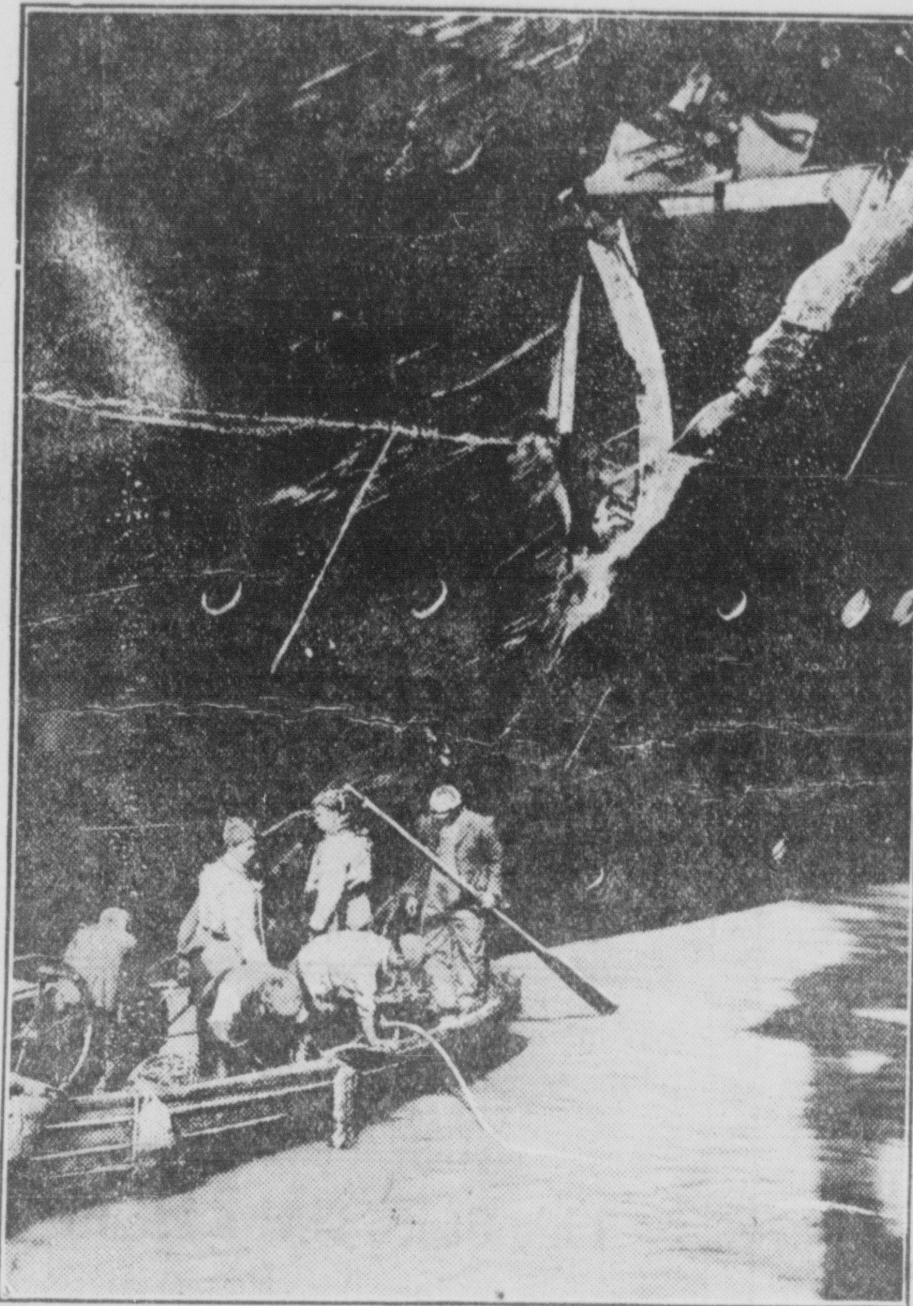

Photo copyright by American Press Association, 1911.

SEAMEN have been speculating as to whether or not a smaller vessel would have remained afloat if rammed as the British cruiser Hawke rammed the Olympic, the biggest ship ever built, near Southampton a few weeks ago. Some experts have expressed the opinion that a smaller vessel would have been sunk. The Olympic, protected by water tight bulkheads, carried her 1,700 passengers safely to Southampton. The hole smashed in her side was large enough for a team and wagon to have been driven through it. The photograph was made after the Olympic returned to Southampton. It shows the tremendous hole made by the Hawke's ram. Divers are also shown inspecting the Olympic below the water line to learn the full extent of the damage. Passengers on the Olympic who witnessed the accident blame the officers of the cruiser. The warship was steaming alongside the huge liner when she suddenly turned as if to pass in the rear of the Olympic, but made a miscalculation and crashed into her. The Hawke nearly capsized, and her prow was smashed by the impact.

## THE ELECTRICAL TRUST BOWS TO INEVITABLE INTENDS TO COMPLY

### Divorced Noted Writer

New York, Oct. 13.—Supreme Court Justice Delany signed an interlocutory decree of divorce for Mrs. Elizabeth M. Chester from George Randolph Chester, writer of the "Get-Rich-Quick Wallingford" stories. Mrs. Chester accused her husband of misconduct with a woman in a studio, and said she left him last January because she "couldn't stand him any longer." Mrs. Chester said that after she left her husband he assigned to her all the royalties from his play.

### Promoters Ask Court To Be Shown Leniency

Toledo, O., Oct. 13.—Declaring that their desire was to comply with all of the provisions of the statutes of the United States, and that they did not know their acts had been unlawful, the General Electric company, the Westinghouse Electric, the National Electric Lamp company and 33 other companies engaged in the manufacture and sale of incandescent lamps and lamp machinery, threw themselves on the mercy of Judge Killets in the federal court here, when they withdrew their answers to the government's suit charging a monopoly in restraint of trade.

The government's suit was filed six months ago in Cleveland. It charged that all of the defendant companies, through contracts and agreements and conspiracies, were restraining trade and commerce in incandescent lamps, and asked the dissolution of the combine. The defendant companies immediately filed answers, denying all of the government's allegations.

## FARMERS MEET TO TALK BUSINESS

Open Thirty-First National Congress at Columbus

### HARMON BIDS THEM WELCOME

Middlemen Blamed by President of Ohio State University For High Cost of Living—Gifford Pinchot and Other Prominent Men on Program For Addresses—Tillers of the Soil Advocate Parcel Post, Good Roads and Improved Waterways.

Columbus, O., Oct. 13.—Governor Harmon extended a hearty welcome to the farmers of the United States, about 1,200 of whom were present at the opening of the 31st annual session of the Farmers' National congress. He termed the agricultural industry as the oldest and most important in the world. "In spite of the wonderful inventions, we must always live on what comes out of the soil," said Harmon. "All farmers are freeholders, and there is a certain dignity in owning a portion of God's footstool without service to anyone. The farmers work for the interests of the people and derive less in individual benefits than men in other professions."

The applause accorded the governor was lukewarm beside the thunderous handclapping which greeted Dr. W. O. Thompson, president of the Ohio State university. Thompson worked himself close into the farmers' hearts by sympathizing with them in the small profits they derive from their products in comparison with the profits of the "middlemen." Charles F. Sanford of London, O., and O. P. Jewett of Dighton, Kan., first and second vice presidents, respectively, of the congress, responded to the addresses of welcome.

### Farmers Not to Blame.

"The problem of high cost of living does not commence upon the farm," declared Thompson. "The enormous fortunes piled up in the past decade have not been amassed by the farmers. The farmer and the little fellow known as 'ultimate consumer' get the little ends of the stick and the middlemen the big profits. A great revolution is bound to come. And, departing from the subject for a moment, I want to say that the day will come when the ordinary office-holder measures up in intelligence with the average voter of his community."

Coincident with the opening exercises two booms for president of the organization were launched—one by the eastern delegates for George M. Whitaker of Washington, D. C., secretary for five terms, and one by the Ohio and western delegates for C. F. Sanford of London, O., present vice president. Officers will be elected Monday, the last day of the session.

The congress is plugging for three issues—parcel post, good roads and improvement of inland waterways. Among the prominent men who have promised to speak are: Gifford Pinchot, former national forester; Hon. C. C. James, deputy minister of agriculture, Ontario; W. M. Hays, assistant secretary of agriculture, Washington, D. C.; and Jesse Taylor, secretary of the Good Roads Federation of Ohio.

Governor and Mrs. Harmon held a reception at the governor's home for the delegates and their wives.

### Confused Orders Cause Wreck.

Lima, O., Oct. 13.—Resulting from a confusion of orders a C. & D. passenger train crashed into a freight train 10 miles north of Lima. Fireman Sollers of Lima, in jumping from the cab of the passenger train engine, received injuries from which he will die. The special car conveying the Montgomery & Stone "Old Town" theatrical troupe was among those wrecked. Several of the occupants received minor injuries.

## Hogan Hears Tale Of Prison Horrors

### Discharged Guard Describes Methods of Punishment

Columbus, O., Oct. 13.—A story of shocking brutality toward prisoners was told Attorney General Horan by Solomon Shipley of Vinton county, captain of the night guard until he was discharged Oct. 1, when the attorney general resumed his probe into penitentiary affairs.

Captain Shipley testified that for 27 months the present management of the pen had kept an insane prisoner named Webb handcuffed and naked in a cell, with nothing to sleep on except a few newspapers that were tossed in from time to time to cover the stone floor.

Shipley told of alleged cruelties to prisoners who, handcuffed, were strung up to the ceiling and left there from 12 to 24 hours for infraction of prison rules.

He testified that there have been 16 escapes from the pen since Warden Jones assumed the management, and that in nearly every case the escape could have been prevented had a sufficient number of guards been kept on duty.

Randolph Jones, a brother of the warden, Shipley said, drew extra pay for serving on the prison fire watch at night, but was permitted to leave the prison between 8 and 9 o'clock and sleep at home, while other guards on the fire watch were required to sleep at the pen.

### Scott's Fate Up to Harmon.

Columbus, O., Oct. 13.—Steve Scott, colored, will die in the electric chair Oct. 20 unless Governor Harmon grants him a third reprieve. Scott's application for pardon, with others, was rejected by the state pardon board. He murdered an Italian laborer near Piqua in 1910. The board suggested four minor commutations.

Everything Sold for Opening World's Series Game.

### TICKET SHARKS REAP REWARD

Quadruple Their Money When Gothamites Bid For Reserved Seats. Crowd of 45,000 Expected When Giants and Athletics Begin Struggle For Supremacy—Betling Is Even Although New York Aggregation Is Quoted as 7 to 5 Favorite.

New York, Oct. 13.—At the office of the New York baseball club it was announced that every seat for tomorrow's world's championship game between the Giants and Athletics had been sold. "Only tickets for Tuesday and Thursday left," shouted the policemen who had been keeping the army of fans in check. "There ain't very many of them left, and it's a case of first comers first served." So eager were the fans to secure seats at this public sale that they began to gather about the St. James building, Broadway and Twenty-sixth street, shortly after 12:30 a. m. These persons headed the line, which gradually lengthened until six hours later it extended from Broadway to Sixth avenue, then south to Twenty-fifth street, and half way through toward Broadway again. In three hours' time 20,000 persons had passed into the buildings, with half as many standing in line on the sidewalks. It was said that 6,000 grandstand seats for tomorrow's game at \$2 and \$3 each were disposed of, while nearly 25,000 seats for Tuesday's and Thursday's games were paid for before the supply was exhausted.

The speculators' agents soon turned over their tickets, and at 11 o'clock persons who were unable to buy seats for tomorrow's game at regular prices were dickering for pasteboards held at exorbitant prices. The speculators readily obtained \$8 for \$3 seats and \$5 for \$2 tickets, and as the demand at this high tariff increased, the prices soared until seats were purchased at four and five times their face value.

### Seats Bring \$200,000.

Conservative estimates placed the amount of money paid to the club and speculators for seats at tomorrow's game at not less than \$200,000. The club's gross receipts will foot up more than \$30,000, it is believed, for this game alone, while the other games, if they are played here, will net an enormous sum. Not more than 15,000 open stand seats at \$1 each will be placed on sale at the Polo grounds tomorrow morning.

The betting on the result of the series is at even money, although the Giants have been quoted 7 to 5 favorites. Athletic backers tried to secure these odds, but as soon as the money was produced Giant supporters asked for even. Many bets at even money were made that Mathewson would not pitch the first game, as there seems to be an impression that McGraw will save him for Monday's battle in Philadelphia, putting Marquard in against the world's champions in the first contest.

# NO NEED TO DRAG ABOUT HALF DEAD

Remarkable New Discovery Which Brightens and Rejuvenates All Who Take It.

The country is filled with half sick, run down, listless people afflicted with nervous debility.

Are you one of them? Do you feel tired all the time, with no ambition or energy? Do you get up in the morning after a poor night's sleep feeling as worn out as when you went to bed? Do you catch cold easily? Is your circulation poor? Have you an irregular appetite? Is your stomach out of order most of the time? Are you nervous and depressed in spirits?

These are the symptoms of nervous debility. Tona Vita the wonderful new tonic is bringing back health to thousands who are afflicted with this trouble. If you are struggling along in this miserable run down condition, trying to do your work when you feel like going to bed, you can get a new lease on life by a trial of this great tonic that is making such a record all over the world.

Men and women in all stations of life are being built up and rejuvenated by Tona Vita. The tonic acts so quickly that it astonishes those who try it for the first time. From the first dose the tired, despondent feeling begins to disappear, sound sleep and good digestion return in a few days. Then health and renewed energy bring back happiness and ambition.

Don't drag about half dead any longer. Get this medicine at once. You will be thankful the longest day you live. If the tonic does not do you more good than anything you have ever tried you can have the purchase price returned by our regular agent.

### WILL GO TO HEAR BILLY.

A special train has been chartered by Greenfield residents to go to Springfield next Thursday, October 19th to hear Billy Sunday, fare for the round trip will be 75c.

The Greenfield band will accompany the excursion, so that when it strikes Springfield the natives will

sit up and take notice. The special train will be used by a large number to attend the Fall Fair in this city on that day.

There is talk of running a special train from this city before Sunday leaves Springfield, but the "talk" has not resulted in any definite action being taken as yet.

### GROWS HAIR ON BALD HEADS.

Bald-Headed People May Get a New Chance in Life.

In these days when youth is the moving factor in business, when a man makes his mark at thirty-five, and is ready to retire at forty-five, when business houses pension the man we call "middle aged" rather than allow his lagging influence to intrude upon the commercial rush, a bald head is almost fatal to any man's hopes. The following must therefore prove interesting to people who are losing their hair or who are bald.

Resorcin is one of the latest and most effective germ killers discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its nutriment, and also creates a clean and healthy condition of the scalp, which prevents the development of new germs. Pilocarbin is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. Yet, it is not a coloring matter or dye.

This combination of curatives mixed with alcohol as a stimulant perfects a most effective remedy for hair and scalp troubles.

The famous Rexall "93" Hair Tonic is chiefly composed of Resorcin, Beta Naphthol, and Pilocarbin. It helps to make the scalp healthy, to nourish the hair, to stimulate the follicles. Where the hair is already bare, it enters the follicles, revitalizes the roots, supplies nourishment, and stimulates a new growth.

We want you to try a few bottles of Rexall "93" Hair Tonic, on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy and it should indisputably demonstrate

that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on bald heads, except, of course, where the baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done to hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Remember, you can get Rexall Remedies in this community only at our store--The Rexall Store, Blackmer & Tanquary.

Traction Matters Grow Interesting

In regard to the extension of the Cincinnati & Columbus Traction company in this city from Hillsboro, a new move in local traction circles is contemplated.

Several of our citizens are in receipt of letters from Mr. George T. Alter, of Cincinnati making a proposition to finance and construct the above-named extension to this city.

Mr. Alter represents that the preliminary costs will amount to \$5,000 or more and asks the friends of the enterprise to contribute \$2500 of it. He agreeing to pay all expenses required above the \$5,000 himself.

We have made an inquiry of Mr. Frank Johnson, who confirms the above, and says that a committee of the friends of the enterprise have agreed to furnish the \$2500, upon a guarantee of repayments in case of failure or neglect to complete the deal. Or the committee agrees to pay up in cash \$5,000, payable to Mr. Alter or assigns upon the completion of the road to the Court House in this city.

Mr. Johnson believes that Mr. Alter will gladly accept one or the other of the propositions. He is the son of Mr. Franklin Alter, one of Cincinnati's richest citizens.

Mr. Johnson says he does not know who Mr. Alter represents. Mr. Alter says it is eastern firms able and willing to do the work.

The committee will furnish Mr. Alter the plans and estimates made some time since, for his information and guidance.

## EFFECTIVE GARBAGE DISPOSAL.

Until lately American practice in the matter of garbage disposal has not been a matter for national pride. Two methods have been common: unsightly, malodorous piles of decomposing refuse have been—in some places still are!—allowed to accumulate in the vicinity of dwellings, or cheap, ineffectual "disposal plants" installed and operated by greedy or dishonest private contractors have been run for a few years and then allowed to lapse into well earned oblivion. Neither procedure is creditable to a civilized state. There is really no need for a continuance of the offensive and wasteful methods that have been commonly employed in this country, says The Journal of the American Medical Association.

At least two methods of garbage disposal have proved effective in typical American cities: incineration and reduction. In the incinerating type all kinds of refuse, ashes, paper, rags, scraps of food, kitchen waste, etc., are fed together into crematories and burned. In European works of this type the heat generated by the combustion with a forced draft is a source of considerable revenue. One of the best examples of an incinerator plant in this country is the Milwaukee incinerator, which has been in full operation since May, 1910. At the old Milwaukee plant the cost of disposal reached as high as \$1.37 per ton of garbage, while the cost at the new plant is less than 60 cents per ton. If the excess supply of steam generated at the plant is economically utilized the actual cost will be further greatly reduced.

In garbage reduction works the sorted garbage is passed through various digestors, tanks and roller presses with a view to extracting the valuable portions, especially the fats and the nitrogenous matters. The Columbus (Ohio) plant, put in operation in July, 1910, is the first reduction plant in this country designed and constructed by a municipality. Successful financial operation of this plant appears in the fact that it netted \$2,000 a month for the first six months.

The reasonable and business-like way of approaching the garbage disposal question is the employment of a reputable and competent engineer to examine local conditions and report on such topics as the most economical routes for collection and transportation, the establishment and location of one or more centers for disposal and the final method of treatment—incineration or reduction—best suited to the amount and nature of the refuse gathered. Small towns should beware of the man with patented machinery. In all cases the expert adviser is better than the quack.

**Trade With  
China  
Should Be  
Objective  
Point of  
All American  
Merchants**

THE flags on the great fleets of the ocean do not mean merely the ADDED TERRITORY of the nation they represent, but the establishment of NEW TRADE connections in foreign lands. In this this country is LACKING, especially in CHINA.

ON BOARD THE GREAT VESSELS OPENING UP BUSINESS IN CHINESE PORTS THE AMERICAN FLAG IS NEVER SEEN. I WARN YOU TO BUILD UP COMMERCIAL INTERESTS IN CHINA.

CHINA is a GREAT, RESOURCEFUL COUNTRY and needs DEVELOPMENT. There is NO FEAR in my mind of the so called YELLOW PERIL. But China is like a great giant awakening. We must remember that civilization started in the east and traveled in a great circle to this country. It has circled where it started after centuries. What is going to be the result?

We are LOSING TIME in not CULTIVATING CHINESE COMMERCE. I could point out a HUNDRED WAYS in which the American merchant has NEGLECTED HIS OPPORTUNITIES and is often RUINING FUTURE CHANCES. Of course we are kept busy supplying the American demand, and we are protected by the tariff wall.

WE HAVE SPENT MILLIONS FOR THE PANAMA CANAL. WHY SHOULD WE HAVE THE PANAMA CANAL WITH NOTHING BUT FOREIGN VESSELS GOING THROUGH IT?

## POETRY.-TODAY

### "MADLY RACING."

I met a man whose brow was sad;  
"Twas in the outskirts of the town;  
He said: "It didn't jolt so bad  
The last time that I tumbled down.  
I've wired for a new set of planes—  
They'll come in four day, at the  
\* most,  
And then, unless again it rains  
I'll madly race from coast to  
coast."

I met a man whose face was grim;  
He stood and looked down at the  
wreck,  
With folks congratulating him  
That he had not a broken neck.  
"I've wired for a new piston rod,"  
He said, and leaned against a post  
And with a contemplative nod  
He madly raced from coast to coast.

They made their terms for room and  
board  
And made repairs by day and  
night;  
The extra parts they soon had stored  
Where they could be secured all  
right.  
A swirl, a sweep, a swinging sweep,  
More bearings that with oil were  
dosed;  
Some blades and wings piled in a  
heap—  
They madly raced from coast to  
coast.

They did not heed the dotted lines  
Which showed them rising o'er the  
range  
And gliding high above the pines—  
They found some parts that they  
must change.  
I stood and watched for quite a while,  
A year or so—I will not boast;  
I timed them for a half a mile  
Of madly racing to the coast.

Ah, little grandchild on my knee,  
Some day when you are old as I,  
Your little grandchild then may see  
A flock of birdmen in the sky,  
Tell him his great-great-grand-  
pa  
By that same contest was engrossed  
That I was one of those who saw  
The demon flight from coast to  
coast.

## Workman Fell Badly Injured

At noon Friday, Fritz Gillenhouse, aged 40, employed by D. W. Schneider, the plumber, fell down stairs while at work in the new house belonging to George Straley, in Jeffersonville, and was seriously injured.

Gillenhouse was employed in installing the fixtures in the residence, and when at the top of the cellar stairs he tripped upon a board, which threw him headlong down the cellar steps, inflicting injuries which will require several weeks to heal.

One thumb was dislocated and his hand injured; one ear was split in twain by a nail or some other object, and a large gash was cut below the right eye, where he struck against a protruding nail. In addition to this he received numerous bruises, but so far as known was not injured internally.

## Your best cup of Coffee is in One of These Blends

Different people with different tastes like different coffee. We are the only coffee experts who offer a Blend of Coffee to suit each taste. Karax for this man, Navarre for that, Vienna for the other, and so on. Coffee experts know there are five distinct flavors that demand. Under the one family name of Golden Sun Coffee you find these five distinct Blends—one to meet your individual taste and give you your perfect cup of coffee.

Coffee is not a matter of Price but Taste. Our lowest priced Blend may exactly suit your taste and it may be 10 to 20 cents a pound lower in price than the coffee you are now drinking. You know—everybody

**Your Grocer will show you five different packages—five distinct blends. Choose the flavor you like best.**

knows, that the prices fixed for coffee give you little or no idea of the real worth of the coffee. Golden Sun Coffee is perfectly ripened, roasted and blended—always uniform, the same next week as this. Hermetically sealed in air-tight, pound packets—Whole Bean in packages—Steel Cut in cans. Don't buy coffee that has lost its strength, richness and purity by being kept in open bins or handled by irresponsible peddlers.

Read the descriptions of the Five Coffee Blends, tear out the one that suits you and order that Blend of your grocer. It will make your most satisfying cup of coffee for all time.

If you are in the habit of ordering your coffee ground, be sure and get Steel Cut Golden Sun in cans and have it properly cut—no ground.

### AFTER FORTY YEARS

Camden, S. C., Woman Recovers from Stomach Trouble.

No one who is not well nourished can be good-natured. That is why dyspeptics are always irritable.

But stomach trouble can be cured in nearly all cases, even after years of suffering. Mrs. Sarah C. Ammons, Camden, S. C., says "I suffered from nervous dyspepsia for forty years and feared I should never get over it. I was terribly run down, could not sleep—thought my health was ruined."

"Last spring I began taking Vinol and it has no equal. I soon began to improve and now I am a well woman again for the first time in forty years. My appetite is good, I sleep well and have no stomach trouble at all. These are the plain facts."

Take our word for it, when you are weak and run down, cannot eat or sleep, Vinol is what you need for it will build you up and make you strong. We guarantee Vinol to please—your money back if it does not. Blackmer & Tanquary.

## Rebels Capture Han Kow Arsenal

Chinese Troops Rushed to Scene of Uprising.

Shanghai, Oct. 13.—Wuchang, Han-yang and the arsenal and powder factory at Hankow are in the hands of the revolutionists. The railway is held by 2,000 men. It is reported that the bridges of the Peking & Hankow railway have been destroyed. The loyal gunboats in the Yangtze have been fired upon and in turn bombarded.

An imperial edict was issued ordering the minister of war, General Yin-Tchang, to proceed to Hankow with two divisions of Peking troops, about 20,000 of whom will probably be Manchus.

The commander of the Chinese navy, Admiral Sah Chen-Ping, is commanded to assemble a fleet of warships in the Yangtsekiang river and join the land forces in an attack upon the rebels now in possession of Wuchang, Hankow and Han-yang.

Between 5,000 and 6,000 Chinese troops in Hankow native city are reported to have mutinied and killed from 200 to 300 Manchus. The rebels have occupied Sui-Ting-Fu.

### Pit Brow Women.

The pit brow women work at the mouths of English coal mines in sheds open to the weather at the sides. The work which they perform has to do with the sorting of the coal according to size and quality and the freeing of it from stones. There is some lifting to be done and some pushing. There is some risk, but not a great deal. Women have been hurt by the catching of their clothing in the belting and machinery, but of late there has been more care than formerly in covering the parts of the machinery which proved dangerous. At the present time accidents are rare and confined for the most part to the crushing of fingers. There is dust constantly rising, and this makes the work untidy. Women working in coal get black faces as well as men, but they wear cloths on their heads, which keep the dust out of their hair, and the fact that they are in the open air, together with the constant muscular exertion required, is on the whole beneficial to their health. Many of the girls are fine figures and all have good color. They prefer the occupation to domestic labor or employment in factories. The wages they earn range from a shilling to 2s. 3d. a day. In the various colliery towns there are upward of 5,000 women thus employed.—Exchange.

### An Elastic Appetite.

The American black bear has an appetite that may be appropriately termed elastic. He will kill a thousand pound steer and capture the tiny field mouse for a meal with equal indifference. If a pig or sheep is not handy to his reach he will dine on a colony of ants or a nest of wood grubs. He will feast on dainty birds' eggs or sweet stores of wild honey and on the foulest carrion with like gusto. He will fish for the savory trout, but at the same time snap any warty toad or slimy lizard that may happen along that way. He will seek the luscious wild plum when it has ripened or the wild grape among the branches where the vine clammers and bears its fruit, but will not miss the opportunity to make food of any snake that may lie in ambush there for birds that come to peck at the plums or grapes. The bear has a comprehensive palate. There is scarcely a thing in the animal or vegetable kingdom that will not tickle it.

### The Strength of Rings.

Some elaborate calculations, backed by experiments, have been made to determine the "breaking strength" of rings. It appears that a ring of ductile material like malleable iron will be pulled out into the form of a long link before it breaks and that the ultimate strength of the ring is virtually independent of its diameter. Fracture finally occurs as the result of almost pure tension, and the resistance to breaking is a little less than twice that of a rod of the same cross section subjected to a straight pull. As the ring increases in diameter there appears to be a slight approach toward equality, with double the strength of a bar. Thus a three inch ring made of three-quarter inch iron broke at nineteen and one-half tons; a four inch ring at nineteen and nine-tenths tons and a six inch ring at twenty tons, the strength of a bar of the same metal being ten and one-half tons.

### A King Full.

When a man charged with disorderly conduct was arraigned by Patrolman Queen before a chief magistrate in the Adams street court, Brooklyn, the court asked, "What's your name?" "Thomas King," was the answer. "Ah," said the magistrate, "a queen captures a king." "Yes, but it wasn't a straight deal," retorted King. "Sure it was," interrupted Queen. "This man is a fourflusher." "What's your business?" "I dig for a living," answered King. "So you are a king of spades," laughed the magistrate. "Yes, but beaten by a club," answered King. "Can you come across with \$2?" "A deuce of a fine," spoke up King, "but I'll see you." He handed over the money, and Clerk Hesterberg raked in the pot. "I see a joker's no good in this game," said King as he was leaving court.—Exchange.

### New Ways of Serving Old Dishes.

The clever hostess can always show her ingenuity by a touch of novelty in the serving of some of the time honored courses at her dinner. Raw oysters, for instance, produce a very original effect when served with maple syrup or whipped cream.

A very palatable fish pudding may be prepared by mixing the finely chopped fish with sugar, raisins and a bit of vanilla extract, serving cold with a custard sauce.

A delicious dessert is onion jelly with caviar sandwiches and maraschino cherries. Try it.—Judge's Library.

### Classified.

"You say you are your wife's third husband?" said one man to another during a talk.

"No, I am her fourth husband," was the reply.

"Heavens, man!" said the first speaker. "You are not a husband—you're a habit."

### Duty Done.

The pleasure a man of honor enjoys in the consciousness of having performed his duty is a reward he pays himself for all his pains.—La Bruyere.

### Look Pleasant, Please!

Senior to Photographer—Which way shall I turn my eye? Photographer—Toward that sign, please. (Sign reads, "Terms Cash.")—Cornell Widow.

Sometimes a noble failure serves the world as faithfully as a distinguished success.
